MEDICAL OFFICE SIMULATION SOFTWARE

Medical Office Simulation Software (MOSS) 2.0: Single User Version

System Requirements:

Processor: minimum required by operating system; Memory: minimum required by operating system; Operating System: Microsoft Windows XP® with Service Pack 2, Windows Vista®; 75 MD free hard disk space; 800x600 monitor display; Recommended: Microsoft Access 2007 (Microsoft Access Runtime supplied on disk).

Microsoft®, Windows®, Windows XP®, and Windows Vista® are trademarks of the Microsoft Corporation.

Installation Instructions:

1. Close all open programs and documents.
2. Place the MOSS 2.0 CD into your CD-ROM drive.
3. MOSS 2.0 should begin setup automatically. Follow the on-screen prompts to install MOSS and Microsoft Access Runtime:
    - Click "Next"
    - Click "I Accept" the terms of the license agreement
    - Click "Next"
    - Click the button next to "TYPICAL" as the setup type
    - Click "Install"
4. If MOSS does not begin setup automatically, follow these instructions:
    - Double click on My Computer.
    - Double click the Control Panel icon.
    - Utilize the Add/Remove Programs feature (for specific instructions on how to use, please reference the User Manual for your Operating System).
    - Click the Install button, and follow the prompts as indicated in Step 3.
5. When you finish installing MOSS, it will be accessible through the Start menu:
    Start › Programs › MOSS 2.0
